

## Announcing the 2016 River Bright Spot Recipients

The Bright Spot program is a way to recognize residents who spend extra time and effort to enhance their property and Rocky River as a community. It is not a competition. River Bright Spots have lovely gardens, interesting design, and quality maintenance. As in the past, the focus was on front yards and curb appeal so that volunteers did not have to go on private property during the review process. Limited volunteer resources dictated that we focus on only one residential category this year, which was single family homes. We look forward to expanding in future years with more members. Please join us!

We hope that these Bright Spots inspire you. We look for more nominations when the program continues in 2017. Thank you to everyone who took the time to submit a nomination!

### Community Bright Spots

Cul-de-sac circle on Eriewood Dr., cared for by neighbors on Eriewood Dr.

### Residential Bright Spots

21442 Aberdeen Rd.,  
Pete & Andrea McGannon  
20617 Beachwood Dr., Kevin & Mary French
